X-Ray • Gamma & High Energy Radiography
• Digital Radiography
Magnetic Particle • Liquid Penetrant
Ultrasonic • Eddy Current • High Volume Sorting
Chemical Processing • Metal Finishing

Date: June 6, 2016

Subject: Press Release | New Location

Dear Valued Customer,

XRI Testing is happy to announce we are expanding our South Carolina operations and moving from our current location beginning June 12th, 2016 to a new location located roughly 3.5 miles away.

This expansion further represents X-Ray Industries, Inc. continued commitment to grow our presence in South Carolina and the Southern Region, and align with our customers current and future requirements.

The new facility will offer Liquid Penetrant, Radiography, Advance Infrared Inspection as well as Immersion and contact Ultrasonics.

Though X-Ray Industries, Inc. is doing everything possible to mitigate any impact to the current service, we do anticipate a brief interruption of service beginning June 13th and becoming fully operational once again on June 20th.

The Team certainly understands this move may cause a temporary inconvenience, though is confident that the change will position XRI Testing to continue to meet and exceed the needs of our customer's now and in the future.

Beginning June 20th, please send all hardware to the following address –

XRI Testing
1097 Highway 101,
Greer, South Carolina 29651.

The Team at X-Ray Industries, Inc. sincerely appreciates your patience and understanding during this time of transition.

Feel free at any time to contact Don Heath, Director of Operations for questions or support; his contact information is listed below.
